EDUCATION

- **K.Ramakrishnan College Of Engineering, Trichy.**
 - **Department:**Computer Science and Engineering • **Expected Graduation:**2024 • **CGPA:**8.1
- **Sri Vignesh Polytechnic College Koothur, Trichy.**
 - **Department:**Mechanical Engineering • **Graduated at:**2021 • **Percentage:**90%

TECHNICAL SKILLS

- **Languages:**Python,C,JavaScript,SQL. • **Technologies/Framework:**HTML,CSS,NodeJS,MongoDB.
- **Developer Tools:**VS code,PyCharm,IntelliJ,Canva

PROJECTS

- **QR Code Generator**

Jan-2024

ROLE:Python Developer.

 - Streamlined QR code creation processes, catering to diverse applications like product labeling, event ticketing, or digital marketing campaigns; resulted in increased efficiency and versatility.
 - Implemented an advanced QR code generation system, streamlining the process and ensuring reliability for an the efficient data encoding and it has an 25% faster Information retrieval and easy scanning.
- **Virtual Credit Card**

Apr-2023

ROLE:Frontend Developer

 - Developed and deployed a visually stunning 3D rendering of a virtual credit card, enhancing user experience and mimicking the physical feel of a real credit card
 - Executed the rollout and hosting of an innovative virtual credit card initiative via GitHub,elevating security measures 45% and optimizing user experience with the 3D view of Virtual creditcard.
- **Graphical Password Authentication**

Sep-2022

ROLE:Backend Integration using python.

 - Created and implemented a highly secure system, bolstering user authentication on online platforms; reduced account breaches by 50% and enhanced user experience.
 - Spearheaded the design and development of an innovative graphical password authentication system, resulting in a 40% decrease in account hacking incidents and ensuring seamless user access.

ACHIEVEMENTS & CERTIFICATES

- Delivered an impactful presentation on "ITWIN TECHNOLOGY" at the prestigious national-level symposium, highlighting its ability to streamline data integration and enhance operational efficiency for businesses.
- Developed a groundbreaking algorithm that optimized data processing efficiency by 50%, leading to a first place finish at the Code War competition at the National Level Symposium.
- Accomplished 'AI FOR INDIA 2.0' skilling course via GUVI and to improve the knoweledge about of AI .
- Python:Proficiency in Python through HackerRank by completing given problem in most efficient way.
- Successfully completed a National Level One-Day Workshop focused on the Analysis of Inventory through optimization method at K Ramakrishnan College Of Engineering.
- Achieved top 5% ranking in Hackerrank's problem challenges through innovative coding techniques,resulting in 20% reduction in code execution time.
